

HYPERLIQUID <> LIGHTER PERMISSIVE MID-PRICE GAP REPORT

Report Generated: 2026-04-25 16:39:18

Repository: C:\Users\user\Desktop\MoneyLaundering\Hyper-LighterARB

Data Range: 2026-04-23 08:17:56+00:00 to 2026-04-25 07:49:56+00:00

Fresh Seconds: 92,079

TEST ASSUMPTIONS

Entry: enter whenever mid gap is non-zero.

Direction: short expensive venue, long cheap venue.

Exit: close when |gap| <= 0.25 bps or the spread crosses zero.

Max hold: none. Open positions are marked at end of sample.

Pricing: ideal mid-price fills. Fees, slippage and funding ignored.

Base sizing: \$10,000 per leg.

Scaling test: add \$10,000 per leg whenever gap widens by 1.0 bps, capped at 5 layers.

SINGLE-ENTRY RESULTS

Trades: 4,224

Total PnL: \$5,717.90

Realized PnL: \$5,720.05

End Mark PnL: \$-2.15

Win Rate: 84.23%

Average Hold: 104.55s

Profitable Average Hold: 123.46s

WIDENING-SCALE RESULTS

Trades: 4,224
